

AHQAF ALI

ahqafaliofficial@gmail.com www.ahqafali.site +91 7084089921 <https://github.com/AhqafCoder>

SUMMARY

Results-driven Full-Stack Developer with expertise in building scalable web and mobile applications using Next.js, React, Node.js, Express, PostgreSQL, and cloud platforms (Google Cloud, Firebase, Supabase). Skilled in API development, third-party integrations, and secure authentication solutions (OAuth, Clerk, JWT). Experienced in rapid MVP development, AI-powered workflows, and startup-style product lifecycles—from concept to launch. Highly collaborative, adaptable, and committed to delivering high-impact, production-ready solutions under ambitious timelines.

WORK EXPERIENCE

OPENGEEK TECH COMMUNITY

Jun 2025 - Present

- Developed a Social Media app with industry grade UI & security for my community, responsive for every device. (<https://community.opengeek.in/>)

INVERTISPREP (INVERTHON 2025)

Apr 2025 - Jul 2025

- Developed a webapp for the university students to access PYQs and notes through a webapp with gamified learning experience. (<https://www.invertisprep.in/>)

Abhiruchi Active Member (I-TECH CLUB)

Sep 2024 - Jan 2025

- Been part of Abhiruchi and served as I-TECH club member, helping in real world tech skills and contribution in tech management in university events.

Discord Community Manager

Jun 2024 - Aug 2024

- Managed a Discord community (INDIPIXEL) for over a year, fostering engagement and growth. Developed strategies for community moderation, content creation, and user retention.

Java Game Development & Singapore Cloud Hosting Game Server

Apr 2024 - Jun 2024

- Gained 3 months of experience in Java server hosting and cloud server hosting. Successfully set up and managed an online multiplayer arcade game server. (<https://indipixel.online/>)
-

EDUCATION

Bachelor of Technology in Computer Science

2024 - 2028

Invertis University, Bareilly

Class XII - 74.62 %

2022 - 2023

R.P.M. ACADEMY, Civil lines, Gorakhpur

Class X - 85.20 %

2020 - 2021

R.P.M. ACADEMY, Civil lines, Gorakhpur

ACHIEVEMENTS

- **Active OpenSource Contributor on GitHub**

I have done almost **800+ opensource contribution** on **GitHub** by helping working professionals code clean and optimized and helped **MNIT CSE students** in various projects while contributing. (<https://github.com/shreesriv12/Marauders-map-2>)

- **Member, Google Developer Group (GDG), New Delhi**

Actively contributed to developer meetups, hands-on sessions, and collaborative projects within the Google tech ecosystem.

- **Winner – INVERTHON 2025 (University-Level Hackathon)**

Led a team to victory by developing an innovative tech solution under tight deadlines, demonstrating exceptional problem-solving and leadership skills.

- **Winner – TECHATHON 2024 (University-Level Hackathon)**

Secured 1st place with a cutting-edge project showcasing expertise in full-stack development and modern technologies.

- **Co-Host & Web Team Member – TEDx Invertis University**

Co-hosted sessions and contributed to the official TEDx event website design & development, improving attendee experience and event visibility.

- **Organizing Committee – INSPIRE Science Bootcamp 2025**

Assisted in planning and managing one of the university's most impactful science bootcamps, handling technical operations and logistics.

- **Community Management – Discord (400+ Members)**

Managed and grew a 400+ member Discord tech community for over a year, engaging users through events, discussions, and support channels.

- **Game Server Administration**

Successfully hosted and maintained an online multiplayer arcade game server, ensuring stable uptime, user engagement, and technical support.

- **Hardware & Server Management**

Extensive hands-on experience in computer hardware repair, troubleshooting, and server setup/maintenance for reliable system performance.

TECHNICAL SKILLS

- **Full-Stack Web Development:** Proficient in building and deploying web applications using Next.js (React) for frontend and Express.js (Node.js) for backend.
- **API Development & Integration:** Skilled in designing, developing, and integrating REST APIs for web and mobile apps.
- **Database & Backend Services:** PostgreSQL, MySQL, Supabase, Firebase, Firestore – schema design, queries, real-time data handling.
- **Authentication & Security:** Implemented secure authentication using OAuth 2.0, Clerk, JWT, Firebase Auth, Google Cloud Console.
- **Version Control & Collaboration:** Advanced Git user; highly proficient with GitHub (branching, pull requests, team workflows).
- **Cloud & Deployment:** Experienced with Google Cloud Platform (GCP), VPS/Linux servers, CI/CD pipelines, SSH configuration, DNS & domain management.
- **AI & Prompt Engineering:** Expertise in prompt engineering, AI-powered development workflows, and AI integration into applications.
- **Problem Solving & Optimization:** Strong debugging skills, scalable architecture design, and rapid MVP development for startup environments.

PROJECTS

- **Hostel Management Software (In Progress – Full-Stack)**
Comprehensive platform for hostel management with role-based access (Admin, Warden, Students), built using Next.js, Express.js, and PostgreSQL.
Code: (<https://github.com/AhqafCoder/HMS>) | Live: (Coming Soon)
- **OpenGeek Community App**
Developer community platform for collaboration, discussions, and resource sharing with Next.js, Express.js, Clerk authentication, and PostgreSQL.
Live: <https://community.opengeek.in> | Code: (<https://github.com/AhqafCoder/OPENGEEK>)
- **OpenGeek Main Site**
Official website of OpenGeek, featuring events, resources, and community details.
Live: <https://www.opengeek.in> | Code: (<https://github.com/AhqafCoder/OPENGEEK>)
- **InvertisPrep App**
Educational app providing study materials, mock tests, and updates for university students.
Live: <https://www.invertisprep.in> | Code: (<https://github.com/AhqafCoder/InvertisPrep>)
- **Healing Website (Paid Client Project – London, UK)**
Professional wellness website developed for an international client, with complete UI/UX and deployment.
Live: <https://showershealing.com> | Code: (<https://github.com/AhqafCoder/DivineEnergyFlow>)
- **EZ Code Platform (Full-Stack, EdTech)**
Interactive coding platform for learning programming, algorithms, and DSA via real-time coding challenges.
Live: <https://ezcode-xi.vercel.app> | Code: (<https://github.com/AhqafCoder/ezcode>)
- **Portfolio Website (Personal Branding)**
Fully responsive personal portfolio showcasing skills, experience, and projects.
Live: <https://www.ahqafali.site> | Code: (<https://github.com/AhqafCoder/PortFolio-Ahqaf>)
- **CWeb Server (Custom Web Framework)**
Lightweight custom web framework for handling HTTP requests and responses.
Live: <https://cweb-7pbz.onrender.com> | Code: (<https://github.com/AhqafCoder/CWEB>)
- **DocSmart (Document Management System)**
Smart system for document storage, organization, and retrieval, built with a focus on scalability.
Code: (<https://github.com/AhqafCoder/DocSmart>) | Live: (Coming Soon)
- **IndiPixel Website (Gaming Community)**
Interactive site for a Minecraft server, showcasing game modes, updates, and community integration.
Live: <https://www.indipixel.online> | Code: (<https://github.com/AhqafCoder/INDIPIXEL>)
